Heather Schmidt Annalee Patipatanakoon Jamie Parker Roman Borys

The Gryphon Trio gave a noonday concert to premiere Heather Schmidt's "Lunar Reflections". This totally attractive piece is built on the idea of five kinds of moon: a Blue (once in a while) Moon; a Pink (April flowers) Moon; a dark hungry December Wolf Moon; a lovely February Snow Moon; and the Thunder Moon of July. The performance was an unequivocal success with the audience, oneself being no exception. It would be wonderful to hear this piece again and give it more consideration.
